

To download the Enduro map onto your smart phone (and use it to locate yourself on the course):

To use the Enduro Volunteer PDF Map, you need to download the Avenza "PDF Maps" app, and then add the map itself to the "PDF Maps" app. After you have done those two things, you can use the map with your GPS just as you would use another map app like google maps. The map is customized to have the Enduro course, as well as roads, aid stations, road crossings and volunteer locations.

First, Get the Avenza "PDF Maps" app for Android or IOS (Ipad or Iphone):

<https://www.pdf-maps.com/get-pdf-maps/>

or (click)

Second, Load the 2015 Laramie Enduro Volunteer Map:

1. On the mobile device, copy this link from this email:

<http://www.mountcrosby.org/2015%20Laramie%20Enduro%20Volunteer%20Map.pdf>

2. Open the "PDF Maps" app, on the mobile device, click the plus sign in the upper right.

3. In the page displayed, click "FROM THE WEB" and paste the link into that box. Click "OK" or "Go".

4. "PDF Maps" will download the file and then process it. This may take a couple of minutes.

5. You can now open the listed file "2015 Laramie Enduro Volunteer Map.pdf".

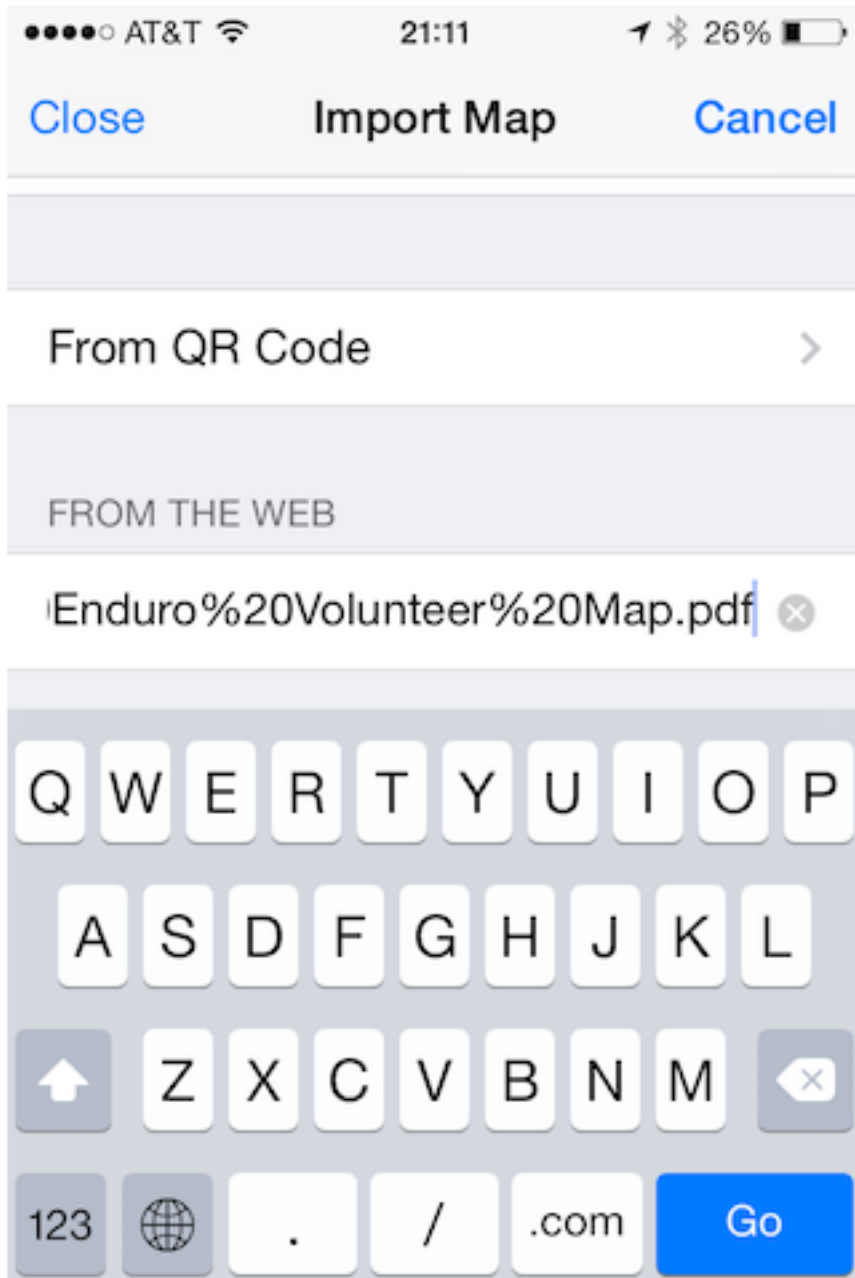

- Pinch and zoom as usual to zoom in and out.

- Press the circle in the upper left on Android to use the GPS with the map. Press the hollow arrow icon in the lower left on IOS to use the GPS with the map.

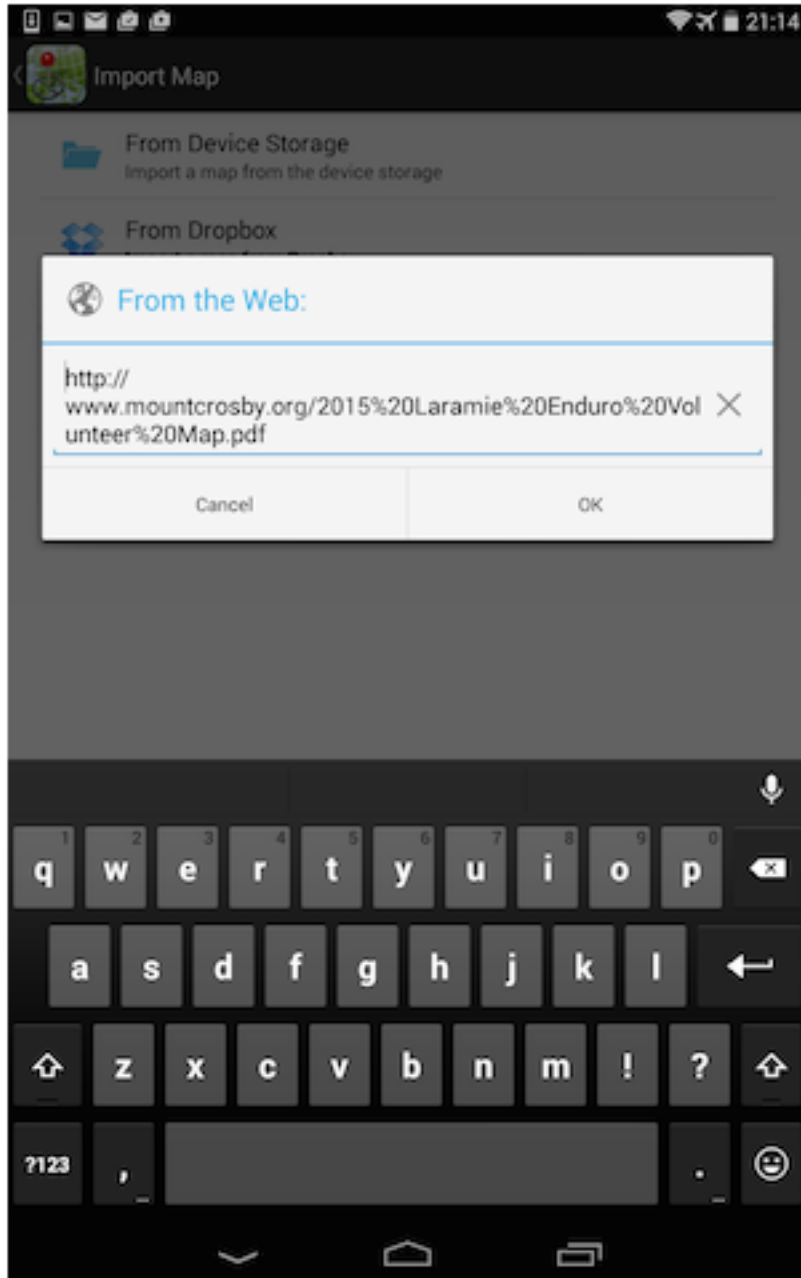

Note: if you are not on the map, your position can't be shown and "PDF Maps" will give you a warning that you are not on the map.

Step 3, looks something like this:

IOS:

Android:
